Money Wikipedia

February 17th, 2019 - The use of barter like methods may date back to at least 100 000 years ago though there is no evidence of a society or economy that relied primarily on barter Instead non monetary societies operated largely along the principles of gift economy and debt When barter did in fact occur it was usually between either complete strangers or potential enemies

Endogenous money Wikipedia

February 18th, 2019 - Endogenous money is an economy's supply of money that is determined endogenously—that is as a result of the interactions of other economic variables rather than exogenously autonomously by an external authority such as a central bank The theoretical basis of this position is that money comes into existence through the requirements of the real economy and that the banking system
